Where can I find an overview of watches and subscriptions?

In short:

In the **Subscription Management portal**, you can view a complete overview of all your watches and the subscriptions linked to them.

Here’s how:

1. Go to **Subscription Management** – here.
2. On the **Dashboard**, you’ll see:
    1. All watches connected to your account.
    2. Which subscription each watch has.
    3. The status of each subscription – for example, active, paused, or expired.

Tip:

- Click on a watch to see more details, such as when the subscription renews, or to pause it.
- If you have multiple watches, you can easily switch between them directly in the dashboard.

Note:

Any changes you make here apply only to the selected watch and its subscription – not to other watches on your account.
