How do I choose a watch face on the watch?

In short:

You can choose which **watch face design** appears on the watch. In the Care Tracker app, you can select between both **analog and digital** watch faces and see which design you prefer.

Here’s how:

1. Open the **Care Tracker app**.
2. Select the watch you want to change.
3. Go to **Settings**.
4. Choose **Watch face design**.
5. Swipe through the different designs to see how they look.
6. Tap **Save** on the design you want the watch to display.

Tip:

You can always change the watch face again if you want a different look.

The change takes effect immediately on the watch.
